

Table 1. Description of stocked muskie populations evaluated for ancestry, including lake name, year sampled, sample size (N) and status: native (N) or introduced (I) population. Samples are grouped by columns according to the number of source populations stocked into each lake.

Lake	Year	N	Status	Lake	Year	N	Status	Lake	Year	N	Status
<u>Shoepack, Wisconsin and Leech</u>				<u>Shoepack and Wisconsin</u>				<u>Shoepack only</u>			
B Mantrap	1984	42	N	Deer	1981	52	N	Cass	1991-97	51	N
	2004	47			2003	73		Baby	1995	10	N
Mille Lacs	1991-94	107	I	Moose	1981	21	N	Spider	2007	27	I
	2006	98			1986	20					
Beers	2002	42	I		1990	61					
W Battle	2003	22	I		2004	124					
Sugar	2003	37	I		2008	138					
				<u>Shoepack and Leech</u>							
				Big	2008	29	N				
				L Boy	2000	50	N				
				Wabedo	2000	43	N				
				<u>Leech and Wisconsin</u>							
				Bemidji	1998	44	N
